DMK ALKALINE WASH

DMK Alkaline Wash system is a remarkable treatment for all areas of the face and body, designed to reduce fine, downy hair (peach fuzz) which is difficult to remove with other methods. After your first treatment, the hair will grow back at its normal rate, but as treatments progress the hair regrowth rate will become slower and the hair will weaken; usually resulting in a permanent loss over a period of time. Works well alongside Electrolysis.
